### Medicaid Expands Breast Imaging Coverage

**Lumberton, June 25, 2007:** Lumberton Radiological Associates is proud to announce that effective immediately NC Medicaid coverage for annual screening mammography is expanding to include females between the ages of 20 and 39 years of age who have high-risk diagnoses.

Medicaid has covered screening mammography for women over the age of 40 as a preventive health measure for the purpose of early detection of breast cancer, but will now cover female recipients as young as 20 for one exam annually when the recipient has

1. a documented positive breast cancer gene mutation;
2. personal history of ovarian cancer;
3. personal history of chest radiation;
4. personal history of atypical/high risk biopsy(ies); or
5. strong family history of breast cancer (first-degree relative: mother, sister, daughter)

For more information concerning LRA's breast imaging, or any of LRA's comprehensive women's health services, please feel free to contact Mike DeCinti, Director of Marketing, at (910) 738-8222 ext 258 or by e-mail at mdecinti@lraxray.com. Also please feel free to visit our website at [www.lraxray.com](http://www.lraxray.com).
